Hi Peter,  
No I can't. Our tape drive died and was tossed.

Jim

Hi Jim,  
When you were here last, did you say you know how to retrieve data using the old RTE mass specs? Mike Lawler needs some of JDs data and the hardcopies were destroyed. Can you retrieve this type of data at the Amherst Lab using those big tapes? I still have the computer hardware here but I have no idea how it works.  
Thanks  
Peter
